Re: School Bond Issue

The Mayor and the Kelsey City Council are championing the issuance of a new bond issue to finance infrastructure improvements needed within the Kelsey School District. We need to inform the voters of the issues that are involved and how the bond issue will solve the District's problems and what impact the bonds will have upon them. We would appreciate your recommendations on the best way to deliver that message to the citizens of Kelsey.

Sincerely,

*Edgardo Benbenek*
